What if I've never played before?

Players MUST arrive 20 minutes before their scheduled game time. This allows for a briefing of how to play, and the rules. After this we will allocate teams, and head to the armory to put on the laser tag vests. The vests will activate allowing players to fire their laser gun at opponents vests and targets around the arena. The vests have sensors on them, and tagging these areas will award points while deactivating the tagged opponent for a short time. At the end of the mission, the packs shutdown automatically and players return to the armory, to take off the vests, and then can gather for a look at the scoreboard
