

## Music List (Figure Session)

- Coaches have priority for playing their skater's music during lessons, with **only one music slot available per 30-minute time slot**. If a coach is teaching a group lesson, only one skater from the group may have their music played within that time slot. Any additional skaters from the group must wait until another coach has had a turn to play music before their program can be played.
- If there are more than two "coach + skater (in lesson)" pairs requesting music, one program from the general skaters' list will be played after every two "coach + skater (in lesson)" programs.
- Before repeating your program, you must fill your name in "2<sup>nd</sup> round" and wait until all skaters have had a chance to skate to their music.
- Once the session time has ended, all queued spots in that time period are cancelled, and the next session's queue begins.**
